NEW NEW

DECKLIGHT

Ballast-free LED lamps replacing mercury lamps

Compliant with ship noise regulations

(JIS-F-0808 standard)

IP65 Equivalent Degree of water and dust protection

10,000lm Total luminous flux

156lm/W Energy Efficiency

Equivalent to 750W Ballast-free Mercury Lamp^{*}

%Measured at 1m directly below (according to our measurements)

Specification

	Model Number	Rated Voltage [V]	Total luminous flux [lm]	Color Rendering Ra	Weight [g]	Degree of water and dust protection IP	Operating Temperature Limit [°C]	Rated Power Consumption [W]		Color Temperature [K]	Diameter [mm]	Length [mm]	Life Time [h]
N	LEF-E39-60D-65K/1	DC19.2-32	10,000lm±10%	85	1,700g±10%	65	-20~40	64	156	6500	124	343	40,000
	LEF-E39-60A-65K/1	AC100-265	10,000lm±10%	85	1,700g±10%	65	-20~40	64	156	6500	124	343	40,000

Features

Equivalent to 750W Ballast-Free Mercury Lamp for Direct Illumination^{*1}

Achieves Energy Savings of Over 80%*2

Achieves total luminous flux of 10,000lm with an efficiency of 156lm/W

Reliable 2-year warranty

Enhanced heat dissipation for longer lifespan

Compliant with Ship Noise Regulations / JIS-F-080

%1 Measured at 1m directly below %2 Compared to 750W ballast-free mercury lamp (according to our measurements)

Fall Prevention

Equipped with a fall prevention wire

Compared to ballast-free mercury lamps

E39 Base

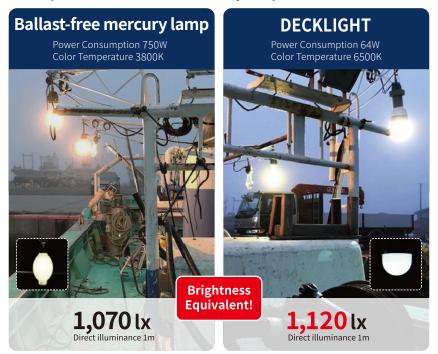

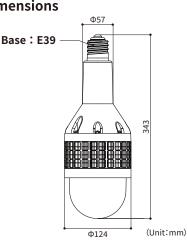

Waterproof structure Comes with waterproof silicone band

Diffusion Cover

Ensures wide-area brightness with a high-diffusion milky white cover

Installation (Lambda 2 equivalent recommended)

①Lambda main unit ②DECKLIGHT main unit ③Silicone bush (hatched area)
